

# RELIABLE, SCALABLE AND FLEXIBLE ASSURED CLOUD INFRASTRUCTURE FOR PUBLIC SECTOR

## WHAT IS IAAS?

Infrastructure-as-a-Service (IaaS) is a combination of network, compute and storage components combined to create a highly scalable and flexible offering.

IaaS provides a lower total cost of ownership than on-premises infrastructure, along with a greater level of resilience and redundancy.

Outsourcery's IaaS – Assured service offers public sector and local authorities assured geodiversity, private connectivity and automatic network failover.

## PLATFORMS DESIGNED FOR THE UK PUBLIC SECTOR

Working with best-of-breed suppliers, like Microsoft, Dell and HP, Outsourcery has developed a UK sovereign IaaS solution, specifically designed to deliver assured cloud services to the UK public sector.

The offering reduces the complexity and cost of implementing robust, flexible and scalable cloud solutions, leveraging award-winning technology and economies of scale to meet the government's Information Assurance and Cloud First policies.

Outsourcery's Assured IaaS has been through rigorous accreditation and testing processes. It holds CESG Pan Government Accreditation (PGA) covering former Business Impact Levels IL0, IL2 and IL3, and it is certified to run government classified information at OFFICIAL Internet or OFFICIAL PSN (Public Services Network) level. **OFFICIAL Internet**, designed for public sector organisations and local authorities, is accredited to OFFICIAL (formerly IL2) with Internet connectivity. **OFFICIAL PSN**, built for government departments to consume cloud services over the PSN, is accredited to OFFICIAL (formerly IL3) with PSN connectivity.

## WHY OUTSOURCERY?

### CLOUD EXPERTISE

Outsourcery has proven expertise, so you can be confident in our abilities. We are a member of Microsoft's CityNext programme, which engages government, businesses and citizens to shape the next generation of cities. We were also one of three global finalists shortlisted for the 2015 Microsoft Public Sector: Government Partner of the Year Award.

### G-CLOUD PROCUREMENT

Outsourcery's OFFICIAL IaaS and SaaS solutions are available on the government's Digital Marketplace G-Cloud framework, enabling public sector organisations to find, compare and procure cloud services. Visit [www.outsourcery.co.uk/publicsector](http://www.outsourcery.co.uk/publicsector)

### PROFESSIONAL SERVICES

We offer a full range of professional services, to help you migrate to the cloud or deploy a hybrid cloud model. We can assist with network migration, implementation and customisation, to ensure the solution we deliver is tailored to the needs of your public sector organisation.

**Working in partnership with Microsoft, Outsourcery realised the gap in the public sector market for assured cloud services, built on Microsoft and delivered from UK sovereign data centres. Without Outsourcery's investment and capability, Microsoft would not have a UK SME with the level of skill required to deliver OFFICIAL cloud services to UK government.**

**Michael Wignall, National Technology Officer, Microsoft UK**

## KEY BENEFITS

### FULLY COMPLIANT

Our IaaS solution complies with government policies and regulations, with standards and processes to help you meet regulatory requirements

### SCALABLE AND FLEXIBLE SOLUTIONS

Fully flexible on-demand infrastructure solutions, that scale up or down (in a matter of minutes) to meet your organisation's changing requirements

### ASSURED CLOUD SERVICES

Benefit from PGA and PSN accredited IaaS, with fully compliant SaaS solutions also available

### DATA SOVEREIGNTY

Outsourcery's IaaS – Assured solution is delivered from highly secure, resilient and UK sovereign data centres

### AUTOMATIC NETWORK FAILOVER

Immediate failover to a secondary data centre if service cannot be recovered in the primary data centre

### INNOVATIVE TECHNOLOGY

Cloud services that improve communication, interaction, collaboration and responsiveness between government departments and the public

### ENTERPRISE-GRADE OFFERING

A platform designed for the needs of UK public sector, with enterprise-grade performance

### 'PAY AS YOU GO'

Manage your cash flow, with no capital expenditure and predictable monthly costs paying only for what you use

## SUPPORT IN THE CLOUD

### CLOUD READINESS

We understand that moving to the cloud can be a complex process. We will work with you to devise a cloud strategy tailored to your business, whether you need a full cloud transition or a hybrid solution.

### CLOUD TRANSITION

We will ensure your transition to the cloud goes smoothly.

### CLOUD SUPPORT

We provide ongoing support, so you get the most out of the cloud.

## GETTING YOU STARTED

If you think your business could benefit from our Assured IaaS solution for UK public sector, then get in touch today.

## CHOOSE THE CLOUD EXPERTS

Outsourcery is a leading UK provider of IT and communications solutions, delivering cloud services to organisations of all sizes since 2007.

We've invested heavily in our enterprise-grade, Ofcom-regulated cloud platform, the O-Cloud, which has been built using the latest technologies from best-of-breed partners to ensure high availability and resilience for the businesses we work with.

Outsourcery is a member of the Microsoft Cloud OS Network – a highly selective worldwide consortium of 25 Cloud Services Providers (CSP) committed to building solutions on the Microsoft Cloud Platform. And of course we hold all the accreditations you would expect from a world-leading CSP, including ISO 27001, 9001 and 14001 standards and the Cloud Industry Forum's Code of Practice certification.

We were also the UK's first carbon neutral cloud provider – a status we are proud to maintain today.

As the cloud experts, our aim is to make sure transitioning to the cloud is pain-free, delivering maximum return for our partners and customers alike. The expertise of our teams, combined with our in-depth consultancy and support capabilities, ensure our cloud services can be fully integrated and tailored to meet your business needs.
